Nilambur, Kerala, 679330, India

Dynamic Senior/Lead Front-End Developer with 7+ years' experience in JavaScript frameworks. Renowned for leading teams, tackling complex challenges, and delivering high-impact, high-performance web applications. Proven track record in optimizing performance, driving innovation, and boosting user engagement while aligning solutions with business goals.

Work Experience

Lead frontend developer
Oct 2023 - Aug 2024
Freelancing | Kerala

1-year tenure as a Freelance Lead Frontend Developer specializing in React Native. Known for friendly, collaborative approach to project delivery. Proven ability to manage and execute projects independently, ensuring high-quality, user-friendly results.

- Led front-end development projects using React Native, delivering high-quality mobile applications.
- Collaborated with designers and back-end developers to integrate APIs and enhance user interfaces.
- Optimized performance and ensured cross-platform compatibility for seamless user experiences.
- Managed client communications and project timelines effectively.

Senior Software Developer
Sep 2020 - Aug 2023
Valtech | Bangalore, India

Senior Front-End Developer at Valtech with 3 years' experience in mobile, web, server-side applications, and CMSs. Expertise in creating responsive interfaces, optimizing performance, and integrating with various back-end systems.

- Developed and optimized responsive web and mobile applications using React, Next.js, and TypeScript.
- Implemented Commercetools-based e-commerce solutions, resulting in a 25% increase in conversion rates and a 20% boost in revenue through optimized product management and streamlined checkout processes.
- Collaborated with UX/UI designers using Figma and Adobe XD to ensure high-quality, user-centric designs.
- Vanilla JavaScript coding experience

Frontend developer
Jun 2017 - Jul 2020
Branding Sparrows Online Solutions Pvt. Ltd. | Cochin, Kerala, India

React Native developer with 3 years of experience in crafting and optimizing cross-platform mobile apps. Expert in API integration, performance enhancement, and delivering top-notch user experiences. Adept at collaboration, problem-solving, and project management.

Urdu

- Developed and launched 8+ cross-platform mobile apps using React Native, achieving a 35% increase in user engagement and a 25% reduction in app load times.
- Integrated Node.js and Express for efficient back-end services, improving data handling and server response times by 40%.
- Optimized React Native applications for performance, resulting in decrease in crashes and boost in user retention.

Projects

BMG songs/ BMG Magnolia
Dec 2022 - Aug 2023

Developed a high-performance website using Pug (formerly Jade), vanilla JavaScript, and Magnolia CMS. Enhanced content management efficiency and user experience with custom templates and dynamic features, delivering a robust, scalable solution that streamlined content updates and improved site performance.

M&Ms(Mars)
Aug 2022 - Feb 2023

Led the development of an advanced e-commerce platform with React, Redux, GraphQL, and Commercetools. Implemented scalable API integrations, optimized builds with Webpack, and used Jest for testing. Leveraged Figma for UI/UX design, resulting in a 30% increase in user engagement and a 25% boost in conversions.

-

Xcite webapp
Oct 2021 - Dec 2022

As a key team member, I led the development of the X-Cite eCommerce web app using Next.js, integrating Commercetools for product management and Redux for state management. Utilized GraphQL for efficient data querying, Storybook for UI components, and Tailwind CSS for responsive design. Optimized builds with Webpack and Babel, applied rigorous testing with Jest and React Testing Library, and ensured cross-browser compatibility using Figma, enhancing user engagement and operational efficiency.

Charles & Keith
Sep 2020 - Aug 2023

As the sole developer for the Charles & Keith eCommerce app, I built a React Native cross-platform solution. Integrated Commercetools and Contentful for product and content management, used Redux and Redux-Saga for state management, and Stripe for secure payments, enhancing user engagement and performance.

NavMedia(OTT mobile app)
May 2019 - Dec 2019

React Native OTT mobile app for high-performance streaming on iOS and Android. Utilized React Navigation for seamless navigation, Redux for state management, and RESTful APIs with GraphQL for dynamic content. Leveraged Expo for rapid development and react-native-video for streaming.
